

ASSENT: THE ONLY ESG SOLUTION BUILT FOR COMPLEX MANUFACTURING SUPPLY CHAINS

85% of investors
considered ESG
factors in their
investments in 2020.

— Gartner: *The ESG Imperative: 7 Factors for Finance Leaders to Consider*

Environmental, social, and governance (ESG) reporting is now a business imperative, but gathering data for accurate ESG reporting is hard and demands full visibility into your supplier network. Assent provides the technology and expertise needed to build a strong foundation for ESG reporting. Designed with complex manufacturing supply chains in mind, our solution offers detailed reporting on critical issues material to your company.

BUILD YOUR ESG FOUNDATION WITH DEFENSIBLE ESG DISCLOSURES

Whether you start with a targeted focus or comprehensive ESG capabilities, Assent grows with you. We help you build a strong foundation based on nine topics most impactful to complex manufacturers.

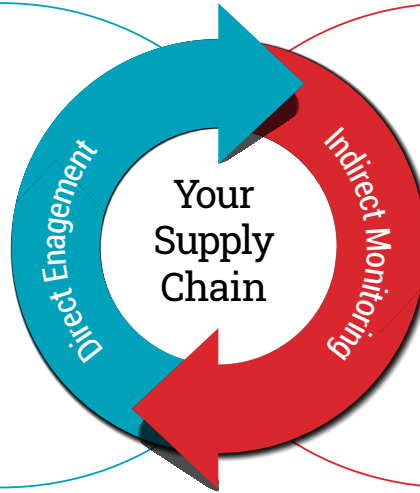

Environmental	Social	Governance
Climate Change	Human & Labor Rights	Organizational Commitment
Resource Use	Employee Health & Safety	Resiliency
Biodiversity	Diversity & Inclusion	Data Protection & Privacy

ASSENT'S 360° APPROACH DRIVES DEEPER INSIGHT

Direct Engagement

Aligned With GRI
& SASB Standards

Get the details you need. Our ESG surveys go beyond shallow, check-box data gathering – sharper ESG reporting starts with better supplier engagement.

Indirect Monitoring

Media & Watchlist Screening

Find out what suppliers may not be telling you. Assent's intensive media and government watchlist monitoring alerts you to risks that can't be found in self-reported data.

With your company under more scrutiny than ever before, you need to have full confidence in your ESG data. Build your ESG capabilities so they are scalable, fully defensible, and meet globally-recognized ESG standards.

Assent is the only ESG solution focused on complex manufacturing that:

- Provides information for detailed, defensible reporting and disclosures.
- Monitors suppliers and their related parties for ESG topics material to your business.

- Enables a view of individual supplier performance across ESG risk areas and product compliance.
- Helps you prioritize suppliers with stronger ESG track records.
- Tracks supply chain ESG health over time.

Assent's platform helps you drive focused ESG reporting based on a deep understanding of regulations, materiality, and best practices for driving meaningful, practical progress. You also gain access to a team of subject matter experts to help you optimize your program for your specific needs.

THE ASSENT SUPPLIER ESG RISK DASHBOARD

Assent combines detailed ESG surveys with intensive monitoring of 2 million+ data sources, including government watch lists, traditional media, and social media channels. Twelve critical risk types, in more than 18 languages across 182 countries are covered, including beneficial owners and related parties.

1. ESG topics that could be a source of risk in your supply chain.
2. Shows progression of supply chain ESG health over time.
3. Performance of suppliers across different ESG risk areas.
4. Highlights strategic partnerships based on how many products each supplier represents.
