

# SUPPLY CHAIN SUMMIT SERIES 2018/19

## DAY 1

- 8:30 AM **Registration & Breakfast**
- 9:00 AM **Welcome & Opening Address**
- 9:15 AM **Future Look: Product Compliance & the Supply Chain**  
Curious about which regulatory changes are coming over the next year? Hear expert opinion on what you need to know about REACH, RoHS, Proposition 65 and other product compliance regulatory updates occurring in 2018 and 2019.
- 10:05 AM **Panel Discussion: Sectoral Guidance on SVHCs & Guidance**  
Product compliance is all about alignment and establishing cohesive, uniform processes that support the collection, normalization and assessment of supply chain data against internal productions. Learn lessons from peers who have built sector-specific programs to tackle the challenges of biannual REACH SVHC disclosures.
- 10:45 AM **BREAK**
- 11:00 AM **Presentation: Words Matter – Aligning Terminology to Industry**  
We all have a tendency to assume other people understand what we are saying. However, language nuances and variations often confound even the most linguistically gifted when dealing with global supply chains. Understand how to integrate industry standardized terminology and references into communication to improve response rates.
- 11:45 AM **Workshop Gamified: Building a Compliance Program**  
Divide into small working groups to build a compliance program. The scenario, budget, company size and revenue targets will be provided. It's up to your team to make it work.
- 12:40 PM **LUNCH**
- 1:40 PM **Case Studies: Responding to Requests Throughout the Supply Chain**  
Hear about regulatory compliance efforts from suppliers representing different tiers of the supply chain. Various companies of different sizes and with different perspectives explain how they respond to customer data requests.
- 2:40 PM **Workshop: Analyzing the Gaps**  
Using the program reports built in the morning workshop, each working group will audit the other team's data for gap analysis.
- 3:30 PM **BREAK**

# SUPPLY CHAIN SUMMIT SERIES 2018/19

- 3:45 PM**      **Data Governance: Reducing Proprietary & Sensitive Data Risks**  
Complying with product compliance regulations involves a significant amount of proprietary and sensitive data that can put companies in scope of data privacy laws. Join our discussion on how to best manage privacy and GDPR, U.S. controlled data and ITAR, and cybersecurity requirements and NIST.
  - 4:40 PM**      **Protectionist Policies: Don't Get Stopped at the Border**  
Bringing products to market requires more than materials compliance information. Gain insight from experts discussing market access and vendor risks associated with Brexit, tariffs/duties, NAFTA, and Country of Origin laws.
  - 5:20 PM**      **Closing Remarks**
  - 6:00 PM**      **Limo Bus Pick-Up & Dinner**

## DAY 2

- 8:30 AM **Registration & Breakfast**
- 9:00 AM **Welcome & Opening Address**
- 9:15 AM **Keynote Presentation**
- 10:10 AM **Presentation: Navigating the Legal Landscape**  
Hear from an expert attorney on legislations your business should be watching closely to ensure your CSR program remains compliant.
- 10:50 AM **BREAK**
- 11:05 AM **Panel: Future Considerations in Third-Party Human Rights Risk**  
In this panel, hear from experts on human rights risks in the supply chain. They will examine human trafficking and modern slavery, global conflict minerals, duty of care laws and non-financial reporting, and what your business should be aware of for 2019.
- 11:50 AM **Workshop: Scoping for Human Trafficking & Modern Slavery in the Supply Chain**  
Divide into small working groups to analyze the different risks that can be found in the supply chain. What are the major risks in your supply chain? How do you manage and mitigate these risks?
- 12:40 PM **LUNCH**
- 1:40 PM **Panel: Peer-to-Peer Insights on Building Successful Compliance Programs**  
Hear how program managers successfully run their programs with limited resources, prepare a budget and capture internal buy-in to move their programs forward. This is a great opportunity to ask your peers how they overcome some of the most common challenges in compliance.
- 2:30 PM **Presentation: Future of Anti-Bribery & Anti-Corruption**  
Join this discussion highlighting future considerations in industry practices and regulations surrounding anti-bribery and anti-corruption. This discussion will focus on how you can leverage existing practices and programs to ensure conformance with regulations such as the Foreign Corrupt Practices Act (FCPA), UK Bribery Act, and Chinese Anti-Unfair Competition Law.
- 3:10 PM **BREAK**
- 3:25 PM **Presentation: Looking Into the Future of Sustainability & Environmental Reporting**  
Non-financial reporting has become a critical topic as once voluntary initiatives have shifted toward mandatory reporting obligations. This presentation will detail how companies are responding to mandatory requirements to disclose carbon use, water use, changes to ISO 14001, and lifecycle assessment requirements that require data from third parties.
